LINCOLN GREEN ENERGY CHOICE

TOWN ELECTRICITY AGGREGATION PROGRAM NOTIFICATION LETTER

July 29, 2022

Dear Lincoln Electricity Service Customer,

I am writing to tell you about the Town electricity program: **Lincoln Green Energy Choice**. This program will increase the amount of renewable energy in your electricity by 27%. You may also choose to receive all of your electricity from renewable sources or an additional 2%.

If you received this letter and you do nothing, you will be AUTOMATICALLY enrolled in the Lincoln Green Energy Choice program.

Your opt-out request must be postmarked by August 31, 2022, to avoid automatic enrollment in the program.

If you do not opt out, you will be enrolled in Lincoln Standard Green at a price of 11.725 ¢/kWh, and you will receive 27% additional renewable electricity.

The program is a form of group electricity purchasing known as electricity aggregation. In an aggregation, the Town uses the bulk purchasing power of the community to choose an electricity supplier for the community and to determine the amount of renewable energy in the community's electricity supply.

Lincoln has signed a contract with First Point Power to supply the Town with electricity that includes 27% renewable energy (27% MA Class I RECs) in addition to the minimum required by the State of Massachusetts. You may also choose to receive 100% renewable electricity (100% MA Class I RECs) or 2% (2% MA Class I RECs) in addition to the minimum required. Please see the back of this letter for pricing information.

This Lincoln Green Energy Choice price will be used to calculate the Supply portion of your Eversource bill, and it will not change until January 2023. This price stability makes the program different from Eversource's Basic Service, which you have now.

With Eversource's Basic Service, the price used to calculate the Supply portion of your Eversource bill changes every 6 months (for residential and small business accounts) or 3 months (for large business accounts). Price stability also makes the program different from many commercial offers that you may receive by mail or by phone. **NOTE: There is no guarantee of savings over the full term of the contract with First Point Power compared with Eversource's Basic Service price.**

IF YOU PARTICIPATE

- If you participate, Eversource will remain your electric utility. You will continue to receive your electricity bill from them and call them if the power goes out. But you will see First Point Power listed as your electricity supplier on the Supply portion of your Eversource bill, and the program price will be used to calculate the Supply charges on your bill.
- If you do not participate, the Supply charge portion of your Eversource bill will continue to be calculated using the Eversource Basic Service price.

If you are eligible for a low-income delivery rate or fuel assistance, you will continue to receive those benefits as a participant in Lincoln Green Energy Choice.

* Program prices include a \$0.001/kWh administration fee. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electric supply agreement.

** The Eversource fixed Basic Service prices change every 6 months for residential and small business accounts and every 3 months for large business accounts. They will next change on January 1, 2023, for residential and small business accounts, and on October 1, 2022, for large business accounts.

*** Exit terms for Eversource Basic Service: No penalty charge. However, large C&I (rates G-3, T-2, and WR) and street lighting customers on the fixed-price Basic Service option may receive a billing adjustment, which may be either a credit or a charge.

FREQUENTLY ASKED QUESTIONS

I have signed my own contract with an electricity supplier. Will I be automatically enrolled? If you have your own contract with an electricity supplier, you should not have received this letter. However, if you did receive this letter and you already have an electricity supply contract that you wish to retain, you **must** opt out of this program. If you do not opt out, your current electricity supply contract may be canceled, and you may be charged an early termination fee by your existing electricity supplier.

I have a tax-exempt account. How can I retain my account's tax-exempt status? Taxes will be billed as part of the program's power supply charge. Customers are responsible for identifying and requesting an exemption from the collection of any tax by providing appropriate tax exemption documentation to First Point Power. Visit [LincolnGreenEnergyChoice.com](https://www.lincolngreenenergychoice.com) for information on where to submit your documentation.
