Air Emissions	System average emission rates are based	on data through the	First Quarte	er 2022						
Carbon Dioxide (CO ₂), Nitrogen Oxide (NO _X), and Sulfur Dioxide	NO _x), and Sulfur Dioxide Emission Type Lbs. per MWn Percentage of NEPOOL System Avera									
(SO ₂) emission rates from these sources are presented as a	Nitrogen Oxides (No _X)	0.6548	100%							
percent of the region's average emission rate based on the	Sulfur Dioxide (SO ₂)	0.4049	100%							
System Mix	Carbon Dioxide (CO ₂)	740.27	100%							
Labor Information	25% of electricity associated with NextEra Energy Services Massachusetts, LLC came from power sources with union contracts and 75% came from power sources without union contracts. 2% of the electricity assigned to this electricity product came from power sources that used replacement labor during labor disputes between April 1, 2021 and March 31, 2022.									
	Electricity customers in New England are served by an integrated power grid, not particular generating units. The above information is based on the most recently available information provided via the NEPOOL Generation Information System and the Massachusetts Department of Telecommunications and Energy. NextEra Energy Services procures its electricity supply through system power contracts, not from specific generating units.									
	2. See your contract terms and conditions for further information on this label. You may contact NextEra Energy Services toll free at 1-855-259-1178, the Massachusetts Department of Energy Resources at 1-617-626-7300 or the Massachusetts Department of Public Utilities at 1-877-886-5066.									
Notes	3. The effective price above applies to usage between December 2021 meter read dates and December 2023 meter read dates.									
	4. NextEra Energy Services Massachusetts retires renewable energy certificates ("RECs") in addition to the RPS Requirement as follows:									
	Standard Product: RECs representing generation from MA Class I resources in an amount equal to 3% of usage and RECs representing generation from National Wind in an amount equal to 27% of usage. Opt-In Basic: None									
	Opt-In 100% Green Product: RECs represe	enting generation from	MA Class I re	esources	in an amou	•	0% of usage.
