

2023* Electric Supply Environmental Attribute Information

Town of Lincoln Green Energy Choice Program

The electric supply product you have purchased from First Point Power meets the minimum requirements of the Commonwealth's Renewable Energy Portfolio Standard.* By law, First Point Power is required to disclose to customers the following non-price information related to the product: (i) power sources; (ii) air emissions; and (iii) labor characteristics.

*Date label was generated

LINCOLN BASIC - POWER SOURCES

Renewable Portfolio Basic Option Resources	
MA Class I RECs to meet RPS requirements	22%
Other RECs to meet RPS requirements	37%
MA Class I RECs (Wind) added voluntarily by Lincoln	2%
Total	61%

System Power	
Total	39%

LINCOLN STANDARD GREEN - POWER SOURCES

Renewable Portfolio Standard Green Option Resources	
MA Class I RECs to meet RPS requirements	22%
Other RECs to meet RPS requirements	37%
MA Class I RECs (Wind) added voluntarily by Lincoln	32%
Total	91%

System Power	
Total	9%

LINCOLN 100% GREEN - POWER SOURCES

Renewable Portfolio 100% Green Option Resources	
MA Class I RECs (Wind)	100%
<small>*Also includes additional RECs to meet other MA clean energy requirements</small>	
Total	100%

AIR EMISSIONS

The production of electricity to support your product results in the emission of air pollutants such as carbon dioxide, nitrogen oxide, and sulfur dioxide. This graph compares the air emissions of (i) the regional system average, (ii) imports to New England, and (iii) a new natural gas power plant.

*The graph is based on 2020 & 2021 data, which is most recent data available

LABOR CHARACTERISTICS

23% of the product's electricity came from power sources with union contracts with their employees.

NOTES

* For more information on the Renewable Energy Portfolio Standard, visit the Massachusetts Department of Energy Resources website at <https://www.mass.gov/orgs/massachusetts-department-of-energy-resources>.
