A NOTIFICATION FROM THE TOWN OF LEXINGTON ABOUT A CHANGE IN YOUR ELECTRICITY SUPPLY PRICE

November 8, 2023

Dear Lexington Electricity Customer,

This notice contains important information about a price change on your Eversource electric bill.

Your electricity account is enrolled in Lexington's Community Choice Program, the Town's electricity program. The program gives you a Lexington price for the Supply portion of your Eversource electric bill. You are enrolled in the **Basic** offering, which is the lowest-priced offering in the program.

Lexington currently has a contract with Constellation to supply electricity to participants in Lexington's Community Choice Program. That contract will expire in December of this year, and a new, 36-month contract with First Point Power will go into effect. **The new contract will bring new prices.**

The Constellation contract was signed in 2020 and has kept our prices low. However, electricity supply prices have risen since then because of volatility in global energy markets. Prices for Lexington's Community Choice Program will move to market levels when the First Point Power contract takes effect.

▶ **Your new price for Basic: 13.081 ¢/kWh**

The new price is fixed for 36 months, from December 2023 - December 2026.

Your new electricity supply price will be higher than your current price, but it is lower than Eversource's current residential Basic Service price of 16.078 ¢/kWh and also lower than Eversource's current small business and large business Basic Service prices (available on the other side), which are all in effect until December 31. Eversource's 2024 prices are not yet known. *Please note that because Eversource's prices change and their future prices are not known, future savings compared with Eversource's prices cannot be guaranteed.*

Your options:

- ▶ **Take no action and remain in Lexington's Community Choice Program.** If you wish to continue participating in the Basic option, no action is required. Your enrollment will renew automatically at the new price in December 2023. You will first see the new price on your Eversource bill in early February 2024.
- ▶ **Change to another option in the program.** You may opt up to the 100% Green option for 13.998 ¢/kWh and receive 100% of your electricity from renewable sources both within and outside of the New England region, or opt up to the New England Green option for 15.654 ¢/kWh and receive 100% of your electricity from renewable sources that are all within the New England region.
- ▶ **Leave the program with no penalty or fee.** You are free to either return to Eversource's Basic Service pricing or sign your own contract with an electricity supplier.

To make a change, visit MassPowerChoice.com/Lexington or contact customer support with Lexington's program consultants at 1-844-379-9935. Please have your Eversource electricity account number ready when you call.

Your options in Lexington's Community Choice Program

The chart below can help you decide whether to remain enrolled in your current option, change to another option, or opt out and return to Eversource's Basic Service. To make a change, visit MassPowerChoice.com/Lexington or contact customer support with Lexington's program consultants at 1-844-379-9935.

The Commonwealth of Massachusetts requires that all electricity supply products include a minimum of 59% from renewable or clean energy resources in 2023, 62% in 2024, 63% in 2025, and 69% in 2026. Basic meets this requirement. 100% Green and New England Green exceed it.

Exit terms	Leave any time. No exit charge.	Leave any time. No exit charge.	Leave any time. No exit charge.		Leave any time. No exit charge. However, large C&I (rates G-3, T-2, and WR) and street lighting customers on the fixed-price Basic Service option may receive a billing adjustment, which may be either a credit or a charge.

* Prices include a \$0.001/kWh administrative fee. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electricity supply agreement.

** 100% Green and New England Green provide 100% renewable energy from emissions-free sources. To meet state requirements, Lexington's electricity supplier must also purchase energy from other sources, some that are renewable but not clean and some that are clean but not renewable. As a result, the total of the renewable content for both 100% Green and New England Green exceeds 100%.

Tax-exempt account holders, please take note: You must provide appropriate tax-exemption documentation to First Point Power in order to maintain tax-exempt status. Visit MassPowerChoice.com/Lexington/TaxExempt for details.
