

TOWN OF CHELMSFORD

MUNICIPAL ELECTRICITY AGGREGATION PROGRAM NOTIFICATION LETTER

December 29, 2023

Dear Chelmsford Electricity Service Customer,

I am writing today with information regarding your electric bill. The Town of Chelmsford has a group electricity buying program called Chelmsford Choice. The program offers long-term, stable prices, consumer protections, and the potential for savings (though savings cannot be guaranteed), while supporting Chelmsford's sustainability efforts.

If you received this letter and you do nothing, you will be AUTOMATICALLY enrolled in Chelmsford Choice, which is in accordance with state law.

Participation is not required. Your opt-out request must be made or postmarked by January 31, 2024, to avoid automatic enrollment.

If you choose to participate, you will remain a National Grid customer, but Dynegy will be listed on your bill as your electricity supplier, and the Chelmsford Choice price will be used to calculate the Supply Services portion of your bill. Nothing else will change:

- Your electric bill will continue to come from National Grid, and you will continue to send payments to National Grid. You will not receive a second electric bill with participation.
- You will continue to call National Grid if your power goes out.
- If you are on a budget plan or are eligible for a low-income discount or fuel assistance, you will continue to receive those benefits.

If you choose not to participate, the Supply Services portion of your bill will continue to be calculated based on National Grid's Basic Service price, as it is now.

Benefits to You

Price stability - Chelmsford Choice prices are fixed until November 2025. Long-term price stability makes Chelmsford Choice different from National Grid's Basic Service, which you have now. Basic Service prices change seasonally. Price stability also makes the program different from many electricity supply offers in the marketplace.

New choices - You have three options in the program:

- Chelmsford Choice Basic provides the minimum amount of renewable electricity required by law. You will be automatically enrolled in Chelmsford Choice Basic.
- Chelmsford Choice Greener provides 64% of your electricity from new renewable energy projects in the New England region and is available by request.
- Chelmsford Choice Greenest provides all (100%) of your electricity from new renewable energy projects in the New England region and is available by request.

Potential savings - Chelmsford Choice offers the potential for savings compared with National Grid's Basic Service prices. However, because National Grid's prices change and their future prices are not known, **Chelmsford Choice cannot guarantee to provide savings over the term of the contract with Dynegy.**

* Chelmsford Choice program prices include a \$0.001 / kWh administrative fee. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electricity supply agreement.

** The Commonwealth of Massachusetts requires that all electricity supply products include a minimum of 62% from clean or renewable energy resources in 2024 and 63% in 2025, which includes electricity from MA Class I renewable energy projects and also from other clean or renewable sources such as nuclear and trash-to-energy. Chelmsford Choice Basic meets the minimum requirement. Chelmsford Choice Greener and Chelmsford Choice Greenest exceed it by including additional electricity from MA Class I renewable energy projects.

Frequently Asked Questions

I have received this letter, and also I have recently signed a contract with an electricity supplier. What should I do? You may have signed your contract after this mailing list was created. In that case, you must opt out if you wish to retain your current contract. If you do not opt out, your account will be enrolled in the program, which may trigger early termination fees from your electricity supplier.

I have solar panels on my property or I participate in a community solar program. If I join Chelmsford Choice, will I continue to receive the credits or payments that I receive now? Yes. You will continue to receive solar credits and/or solar incentive payments, and participating in Chelmsford Choice will not change how they are calculated.

I have a tax-exempt account. How can I retain my account's tax-exempt status? Taxes will be billed as part of the program's power supply charge. Customers are responsible for identifying and requesting an exemption from the collection of any tax by providing appropriate tax-exemption documentation to Dynegy. Visit ChelmsfordChoice.com for how to submit your documentation.

If you have any additional questions, please do not hesitate to contact customer support at chelmsford@masspowerchoice.com or 1-844-483-5004. Our Town consultants will be happy to help you. Or visit the program website at ChelmsfordChoice.com.
