

TOWN OF BELLINGHAM ELECTRICITY PROGRAM

NOTIFICATION LETTER

February 21, 2024

Dear Bellingham Electricity Service Customer,

This letter contains important information about your electric bill.

The Town of Bellingham has an electricity aggregation program called **Bellingham Power Choice**. Bellingham Power Choice is a transparent, Town-vetted alternative to other electricity offers in the marketplace. Through the program, National Grid delivers your electricity, but Bellingham chooses its own electricity supplier. Bellingham Power Choice offers long-term electricity price stability, choices, and the potential for savings (though savings cannot be guaranteed).

If you received this letter and you do nothing, you will be automatically enrolled in Bellingham Power Choice, in the Power Choice Standard offering, at a price of 13.95 ¢/kWh.

If you do not wish to participate, your opt-out request must be postmarked by March 25, 2024, to avoid automatic enrollment in the program.

- **If you choose to participate:** National Grid will remain your electric utility. You will continue to receive your electric bill from them and call them if the power goes out. However, National Grid will use the Bellingham Power Choice price to calculate the Supply Services portion of your bill, and Direct Energy will appear on your bill as your electricity supplier. **If you are eligible for a low-income discount or fuel assistance, you will continue to receive those benefits.**
- **If you choose not to participate:** National Grid will continue to calculate the Supply Services charge on your bill using their Basic Service price.

Program Benefits

Price stability - Bellingham Power Choice prices are fixed until December 2025. This price stability makes the program different from National Grid's Basic Service price, which you have now and which changes seasonally. Stability also makes the program prices different from many commercial electricity supply offers available in the marketplace.

Choice - Bellingham Power Choice gives you two alternatives to National Grid's Basic Service. Power Choice Standard provides the minimum amount of renewable electricity required by state law. Power Choice Green provides all of your electricity from renewable sources. You will be automatically enrolled in Power Choice Standard, but you may choose Power Choice Green for a small premium. (*Details for both on the back.*)

Potential savings - The program prices offer the potential for savings compared to National Grid's Basic Service prices. **However, because National Grid's prices change, and their future prices are not known, savings compared with National Grid's Basic Service prices can never be guaranteed.**

From other clean or renewable sources, required by state law	38%	36%	38%	36%	38%	36%
Exit terms	Leave any time. No exit charge.		Leave any time. No exit charge.		Leave any time. No exit charge. However, industrial customers only (rates G-2 and G-3) on the fixed-price Basic Service option may receive a billing adjustment, which may be either a credit or a charge.	

* The Power Choice Standard price and Power Choice Green price both include a \$0.001/kWh administrative fee. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electricity supply agreement.

** The Commonwealth of Massachusetts requires that all electricity supply products include a minimum of 62% from clean or renewable energy resources in 2024 and 63% in 2025, which includes electricity from MA Class I renewable energy projects and also from other clean or renewable sources such as nuclear and trash-to-energy. Power Choice Standard meets the minimum requirement. Power Choice Green exceeds it by including additional electricity from MA Class I renewable energy projects.

Frequently Asked Questions

Are savings guaranteed? No. While the program goal is to deliver savings when compared with the average of National Grid's changing prices, future National Grid prices are not known. As a result, savings compared with National Grid cannot be guaranteed.

I have signed my own contract with an electricity supplier. What are my options? If you have signed a contract and also received this notice, you may have signed your contract after this mailing list was created. To stay in your contract and to avoid potential early termination fees, you need to opt out of this program by the deadline. Otherwise, you will be automatically enrolled in this program.

I have a tax-exempt account. How can I retain my account's tax-exempt status? Taxes will be billed as part of the program's power supply charge. Customers are responsible for identifying and requesting an exemption from the collection of any tax by providing appropriate tax-exemption documentation to Direct Energy. Visit BellinghamPowerChoice.com for information on where to submit your documentation.

If you have any additional questions, please visit the program website at BellinghamPowerChoice.com or contact customer support with our Town consultants at Bellingham@MassPowerChoice.com or **1-844-241-8595**.
