# 2024\* Electric Supply Environmental Attribute Information City of Greenfield Light & Power

The electric supply product you have purchased from First Point Power meets the minimum requirements of the Commonwealth's Renewable Energy Portfolio Standard.\* By law, First Point Power is required to disclose to customers the following non-price information related to the product: (i) power sources; (ii) air emissions; and (iii) labor characteristics. \*Date label was generated

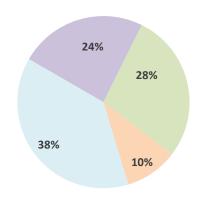

## **GREENFIELD LIGHT & POWER BUDGET - POWER SOURCES**

Renewable Portfolio Standard - Budget Option Resources	
MA Class I RECs to meet RPS requirements	24%
Other RECs to meet RPS requirements	38%
National Wind RECs	38%
Total	100%

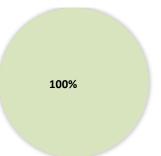

#### **GREENFIELD LIGHT & POWER STANDARD - POWER SOURCES**

Renewable Portfolio Standard - Standard Option Resources	
MA Class I RECs to meet RPS requirements	24%
Other RECs to meet RPS requirements	38%
MA Class 1 No BioMass	10%
National Wind RECs	28%
Total	100%

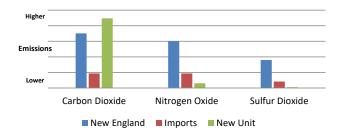

#### **GREENFIELD LIGHT & POWER LOCAL GREEN - POWER SOURCES**

Renewable Portfolio Standard - Local Green Option Resources	
Renewable Electricity, all from the New England Region	100%
*Also includes additional RECs to meet other MA clean energy requirements	
Total	100%

## **AIR EMISSIONS**

The production of electricity to support your product results in the emission of air pollutants such as carbon dioxide, nitrogen oxide, and sulfur dioxide. This graph compares the air emissions of (i) the regional system average, (ii) imports to New England, and (iii) a new natural gas power plant.

\*The graph is based on 2022 & 2023 data, which is most recent data available

#### **LABOR CHARACTERISTICS**

23% of the product's electricity came from power sources with union contracts with their employees.

### **NOTES**

\* For more information on the Renewable Energy Portfolio Standard, visit the Massachusetts Department of Energy Resources website at https://www.mass.gov/orgs/massachusetts-department-of-energy-resources.
