* State law requires all electricity suppliers to purchase Renewable Energy Certificates (RECs) from other sources, including sources that are not new, are renewable but not clean, such as waste to energy, or are clean but not renewable, such as nuclear. This purchase must be made even if the total amount of RECs purchased from either clean or renewable sources exceeds 100% of the electricity used by Chelmsford Choice participants.

Additional information:

Your electricity supplier will change to Direct Energy Services, LLC ("Direct Energy"). On your bill, you will see "Direct Energy-Chelmsford Choice." But your primary relationship for electricity remains with National Grid, and you will continue to call them if your power goes out. In addition, National Grid will continue to send your electric bill, and this is the only electric bill you will receive as a participant in Chelmsford Choice.

If you are eligible for a low-income discount or fuel assistance, those benefits will continue in Chelmsford Choice.

If you have solar panels on your property or you participate in a community solar program, you will continue to receive solar credits and/or solar incentive payments, and participating in Chelmsford Choice will not change how they are calculated.

If you have a tax-exempt account, you are responsible for requesting an exemption from the collection of any tax by providing appropriate tax-exemption documentation to Direct Energy. Visit ChelmsfordChoice.com to learn more.

If you have received this notice and also you have signed a contract with an electricity supplier, you may have signed your contract after this mailing list was created. To continue receiving electricity from the supplier you chose and prevent any early termination fees from that supplier, **you must opt out of Chelmsford Choice.**

The automatic enrollment model is in accordance with state law. More than 200 cities and towns in Massachusetts have similar programs, and all operate the same way. However, you are not required to participate. You may opt out at any time with no fee or penalty.

At the end of the contract with Direct Energy, the Town intends to sign a new long-term contract. The electricity supplier and renewable energy content may change, and the price may be higher or lower than the current price. You will continue in the same program option at the new price unless you inform the program otherwise. The Town will provide advance notice of any such changes, and you will be free to opt out or change your option before the changes take effect.
