An important message about a new electric bill discount available to you through Acton Power Choice

October 23, 2026

Dear Acton electricity customer:

I am pleased to notify you that **you are eligible for a new, 4-month discount on your Eversource electric bill** because you are:

- Enrolled in the Acton Power Choice electricity program (learn more at ActonPowerChoice.com).
- On one of Eversource's discount rates: R-2, R-2HP, or R-4.

Your new discount: 21 cents per kilowatt-hour ($0.21/kWh)

You will receive the discount in the form of a payment on your Eversource electric bill. Your discount payment will be based on the amount of electricity you use each month during the 4-month discount period.

- **Example:** A customer using 500 kilowatt-hours per month will receive a discount of $105 (500 X $0.21 = $105). Your discount amount may be higher or lower depending on your electricity use.

When you will see the discount on your electric bill

The discount will be applied for 4 consecutive billing cycles.

The first discount payment will be based on the electricity you used during your August to September billing cycle. For most customers, **the discount payment will first appear on the Eversource bill you receive in early November**.

How the discount is funded

The discount is being funded by Acton Syncarpha, the owner of the large solar project on Independence Road, as a result of their participation in the Federal Low-Income Communities Bonus Credit Amount Program. The Town will receive the money for the discount from Acton Syncarpha and will pay the discount amount to Eversource. Eversource will then apply the discount to your bill in the form of a payment.

If you have questions, please contact customer support with our program consultants at 844-379-9933.

Sincerely,

John S. Mangiaratti
Town Manager
