

An important message about a change in your electricity supply price

October 9, 2026

You are receiving this notice because your electricity supply price will change in November.

Your electricity account is enrolled in Pepperell Community Electricity, our Town's group electricity buying program. Through the program, you receive a Pepperell Community Electricity price for the Supply Services portion of your electric bill instead of National Grid's Basic Service price. Since the program launched in 2024, Pepperell residents and businesses have saved a total of more than **\$700,000** compared with National Grid's prices, though future savings cannot be guaranteed.

You are enrolled in the **Pepperell 100% Green** option, which provides 100% of your electricity from new renewable sources.

In November, the current program prices will expire and new, 3-year prices will take effect. Electricity prices are higher now than when Pepperell locked in the current prices. As a result, program prices are increasing.

- Your current electricity supply price is 16.578 ¢/kWh.
- Your new electricity supply price will be **18.400 ¢/kWh**. This price will be in effect from November 2026 until November 2029.
- See the table for National Grid's current prices. *Future savings compared with National Grid cannot be guaranteed.*

Your new electricity supply price:

18.400 ¢/kWh

Look for it on your December bill.
