GREEN WORCESTER ELECTRICITY

MUNICIPAL AGGREGATION PROGRAM

Program Overview

The Green Worcester ElectriCITY Municipal Aggregation Program is a City electricity supply program that gives residents and business owners more choices for powering our community while taking a big step toward achieving our sustainability goals. The program is a group electricity buying program that changes the electricity supply price on your National Grid electric bill. More than 200 other cities and towns in Massachusetts have similar programs.

Using the bulk buying power of our community, the Green Worcester ElectriCITY Municipal Aggregation Program provides:

- An easy way to get more of your electricity supply from renewable sources
- Fixed pricing until December 2027
- The freedom to leave anytime with no fee or penalty

The Green Worcester ElectriCITY Municipal Aggregation Program has three options. Choose the one that's right for you.

New program participants will be automatically enrolled in Worcester Standard Green.

The Green Worcester ElectriCITY Municipal Aggregation Program will appear as your electricity supplier under the "Supply Services" section on your National Grid bill. You will remain a customer of National Grid because they are Worcester's only electric utility. National Grid will continue to deliver your electricity, and their delivery charges will appear under the "Delivery Services" section of your bill.
